Preferred Replacement Awning Window

7400 Series Awning Window

Features & Benefits:

- Energy efficient insulated glass helps improve energy savings and helps reduce heating and cooling costs
- Fusion-welded vinyl frame and sash create a strong, weathertight window
- Dual weatherstripping virtually eliminates drafts for a more energy efficient home
- Folding operator handle eliminates interference with shades and blinds
- A beveled profile offers a sleek design to match any style home
- Various styles are available to fit your space

Whether you're looking for beauty or functionality, the Silver Line® 7400 Series awning window provides endless options for your home. Hinged on top so that it swings outward, it is ideal for providing effective ventilation without letting the elements in. With its reliable, energy efficient performance and affordable style, the 7400 Series awning window is a great value.

Color

These Silver Line® vinyl windows are available in white and beige. The color is consistent throughout the frame and sash, making scratches virtually invisible.

Energy Efficient Glass Options

All Silver Line windows and doors are available with energy efficient, dual-pane glass options to achieve the level of comfort and energy savings you are looking for. This window offers:

LoE2 Glass – Designed to efficiently and transparently reflect heat, this glass helps keep your home warmer in the winter and cooler in the summer. This can help reduce your energy bills while still ensuring exceptional clarity.

LoE3 Glass – This highly efficient glass helps reflect even more heat, resulting in increased comfort and energy savings year-round.

Argon Gas Fill – An odorless, non-toxic gas that helps reduce heat loss, helping to save on heating costs.

ENERGY STAR®

PARTNER OF THE YEAR

Andersen Corporation, including its subsidiary Silver Line Building Products LLC, earned the 2010 ENERGY STAR® Partner of the Year award.

When shopping for windows, look for windows that have the ENERGY STAR® label. These windows are deemed to be energy efficient by the U.S. Department of Energy. This window meets ENERGY STAR version 5.0 qualifications in all 50 states with optional LoE3 glass and Argon gas.

Hardware

Color coordinated to match the window and designed to provide easy operation. The folding handle eliminates interference with shades and blinds.

Folding Handle

Lock

* Available with flat grilles only

Printing limitations prevent exact color duplication. See your Silver Line supplier for actual color samples.

Silver Line does not warrant that inert gas infills (such as Argon gas), sealed in the insulated glass unit at the point of manufacture, will not dissipate over time. Silver Line reserves the right to change product designs, specifications, details and pricing at any time without prior notification.

Grilles and Patterns

Our grilles-between-the-glass options are specially designed to enhance your home's décor and make cleaning your windows a breeze. Or select Simulated Divided Lites (SDL) with grilles attached to the outside of the glass to give the traditional look of individual panes of glass. Grilles are available in several different patterns that are sure to add style to any home.

7400 Series Awning Window Features

For more information on Silver Line® windows visit us at www.silverlinewindows.com or call us at 800.234.4228

Performance labels provide the U-Factor and SHGC ratings of a product. The lower the U-Factor, the more you'll save on heating bills. A low SHGC rating will help save on cooling costs. This window has been tested and certified to NFRC standards for energy efficiency.

| Glass Type | No Grilles | | | Grilles | | |
|-------------------|------------|------|-------------|----------|------|-------------|
| | U-Factor | SHGC | ENERGY STAR | U-Factor | SHGC | ENERGY STAR |
| Clear | 0.45 | 0.55 | - | 0.45 | 0.50 | - |
| LoE2 | 0.33 | 0.29 | ■ | 0.33 | 0.27 | ■ ■ |
| LoE2 w/ Argon Gas | 0.30 | 0.29 | ■ ■ ■ | 0.30 | 0.26 | ■ ■ ■ ■ |
| LoE3 | 0.33 | 0.22 | ■ ■ ■ ■ | 0.33 | 0.20 | ■ ■ ■ ■ |
| LoE3 w/ Argon Gas | 0.30 | 0.22 | ■ ■ ■ ■ ■ | 0.30 | 0.20 | ■ ■ ■ ■ ■ |

Thermal data shown is for products with standard glass construction required to meet published Performance Grade or Design Pressure ratings.

This window has been tested to the AAMA/WDMA/CSA 101/I.S. 2/A440 standard for product performance. A product only achieves the resulting Performance Grade (PG) or Design Pressure (DP) rating if it complies with all the requirements in the standard (i.e. structural loading, air infiltration resistance, water penetration resistance, etc.). A higher PG or DP rating indicates the product has passed higher performance requirements to the AAMA/WDMA/CSA 101/I.S. 2/A440 testing standard.

| Type | Size | Rating |
|--------|-----------|--------|
| Single | 48" x 30" | PG 45 |
