Premium Replacement Double-Hung Window

9500 Series Double-Hung Window

Features & Benefits:

- Energy efficient LoE2 insulated glass for superior energy savings and lower heating and cooling costs
- Fusion-welded vinyl frame and sash create strong, weathertight corners
- Dual weatherstripping virtually eliminates drafts for a more energy efficient home
- Standard double strength glass is more resistant to breakage and reduces unwanted exterior noise
- Optional oak interior laminate for the warm, rich look of wood
- The simple, graceful, convex design enhances your home's appearance

The Silver Line® 9500 Series premium replacement double-hung window offers the ultimate balance of energy savings, beauty and performance. Filled with standard features that others offer as upgrades, the 9500 Series double-hung window is in a class of its own providing impeccable styling and engineering excellence for strength and performance. Standard double strength, LoE2 glass helps provide excellent energy savings and improved sound control. With an optional interior oak laminate this window affords the warm, rich look of wood, without the maintenance.

Color

These Silver Line® vinyl windows are available in white, beige and an interior oak laminate option for the warm, rich look of wood without the maintenance.

Energy Efficient Glass Options

All Silver Line windows and doors are available with energy efficient, dual-pane glass options to achieve the level of comfort and energy savings you are looking for. This window offers:

Standard LoE2 Glass – Designed to efficiently and transparently reflect heat, this glass helps keep your home warmer in the winter and cooler in the summer. This can help reduce your energy bills while still ensuring exceptional clarity.

LoE3 Glass – This highly efficient glass helps reflect even more heat, resulting in increased comfort and energy savings year-round.

Argon Gas Fill – An odorless, non-toxic gas that helps reduce heat loss, helping to save on heating costs.

ENERGY STAR®

PARTNER OF THE YEAR

Andersen Corporation, including its subsidiary Silver Line Building Products LLC, earned the 2010 ENERGY STAR® Partner of the Year award.

When shopping for windows, look for windows that have the ENERGY STAR® label. These windows are deemed to be energy efficient by the U.S. Department of Energy. This window meets ENERGY STAR version 5.0 qualifications in all 50 states with optional LoE3 glass and Argon gas.

Hardware

Designed to match the window and engineered to provide easy operation. With our unique indicator lock you can see at a glance if your window is locked.

* Available with flat grilles only

Printing limitations prevent exact color duplication. See your Silver Line supplier for actual color samples.

Silver Line does not warrant that inert gas infills (such as Argon gas), sealed in the insulated glass unit at the point of manufacture, will not dissipate over time. Silver Line reserves the right to change product designs, specifications, details and pricing at any time without prior notification.

Grilles and Patterns

Our grilles-between-the-glass options are specially designed to enhance your home's décor and make cleaning your windows a breeze. Or select Simulated Divided Lites (SDL) with grilles attached to the outside of the glass to give the traditional look of individual panes of glass. Grilles are available in several different patterns that are sure to add style to any home.

Performance labels provide the U-Factor and SHGC ratings of a product. The lower the U-Factor, the more you'll save on heating bills. A low SHGC rating will help save on cooling costs. This window has been tested and certified to NFRC standards for energy efficiency.

Glass Type	No Grilles			Grilles		
	U-Factor	SHGC	ENERGY STAR	U-Factor	SHGC	ENERGY STAR
Clear	0.47	0.59	-	0.47	0.53	-
LoE2	0.34	0.32	-	0.34	0.29	■
LoE2 w/ Argon Gas	0.31	0.32	■	0.31	0.29	■ ■
LoE3	0.34	0.24	■ ■	0.34	0.22	■ ■
LoE3 w/ Argon Gas	0.30	0.24	■ ■ ■	0.30	0.22	■ ■ ■

Thermal data shown is for products with standard glass construction required to meet published Performance Grade or Design Pressure ratings.

This window has been tested to the AAMA/WDMA/CSA 101/I.S. 2/A440 standard for product performance. A product only achieves the resulting Performance Grade (PG) or Design Pressure (DP) rating if it complies with all the requirements in the standard (i.e. structural loading, air infiltration resistance, water penetration resistance, etc.). A higher PG or DP rating indicates the product has passed higher performance requirements to the AAMA/WDMA/CSA 101/I.S. 2/A440 testing standard.

Type	Size	Rating
Single	40" x 62"	PG 45
	48" x 80"	PG 30
